

CLARITY®

Multi-Establishment Safeguarding

Safeguarding concerns are rarely limited to a single place or issue - they often occur in multiple locations and involve several people and concerns. Building a rich picture using a wide base of data, from a multi-establishment perspective can provide much greater insight. Organisation-wide and inter-agency action now becomes possible. Data from multiple cases on MyConcern can be analysed using the advanced capabilities of Clarity to track trends, identify actionable opportunities for intervention, save time and money and improve safeguarding practice.

Clarity is designed specifically to support strategic safeguarding, enabling leadership teams to track trends, monitor performance and identify actionable opportunities.

Clarity+

Clarity is a powerful reporting tool designed exclusively for multi-establishment safeguarding. Paired with MyConcern to provide high-level, anonymised reporting, the system enables you to detect risks, spot trends and track progress across groups of establishments. Clarity helps to identify actionable insights, inform decision making and uncover opportunities for 'early help', helping to ensure that your safeguarding responsibilities are met.

Clarity+ offers additional functionality for those organisations seeking to implement a higher level of operational and data consistency across their establishments using MyConcern.

The benefits of gaining Clarity for your organisation

- ✔ View collective data to identify particular types of concerns that may have arisen in a specific location that could spread to your other settings
- ✔ Evaluate and prove the effectiveness of your safeguarding strategy by comparing data trends over time and inform future decision making
- ✔ Break down concern categories per establishment to identify where to focus specific resources
- ✔ Achieve a higher-level view, especially important for those with geographically dispersed locations
- ✔ Monitor recording trends across your settings and locations to identify any patterns and opportunities for early interventions
- ✔ Create and save any number of reports in your reports library; these can be easily added to your quick access dashboard and shared with others
- ✔ Identify training needs and resourcing requirements
- ✔ Achieve and demonstrate compliance with statutory requirements and organisational policies and procedures
- ✔ Centralised configuration equips the Clarity+ owner to configure MyConcern settings across all their settings/locations

"As a MAT Safeguarding Lead, Clarity enables me to have an oversight of what is happening across all our schools and then support and act on this accordingly."

Sue Bailey, Multi-Academy Trust Safeguarding Lead
